Part #	Capacity (kgr)	Pressure (psi)	Temperature (°F)	L x W x H (in)
EWS SP30BFJCT	30,000	40-110	40-110	27" x 18" x 57"
EWS SP45BFJCT	45,000	40-110	40-110	28" x 20" x 63"
EWS SP60BFJCT	60,000	40-110	40-110	32" x 20" x 61"

Soft Water

Hard water can lead to numerous issues in your home. When mineral deposits from hard water create scale buildup in your appliances, they start to work less efficiently. Dishware will develop a cloudy appearance, clothing won't be cleaned properly no matter how much detergent is used, and soap scum will start to appear in your kitchen and bathroom. As deposits build up in your pipes, the flow of water becomes constricted, eventually leading to a backup which can be expensive to fix.

All of these hard water issues can be solved with a Premium Series Water Softener. The life of your appliances will be extended, your dishware will shine, and your clothing will be bright and clean.

Choose Excalibur

Choose a system you and your family can depend on for soft water with the Premium Series Water Softener from Excalibur Water Systems.

The Excalibur water softening resin is certified by WQA to NSF/ANSI/CAN 61, 44 and 372
